7000D is based on Android System to ensure a superior patient monitoring experience. It provides a world class monitoring technology for maximize your confidence in daily work.

Cardiology

7000D uses latest Zoncare best iMAC ECG algorithm to make the data more accurate.

NIBP

7000D contains NBP blood pressure technology inside. It measures the real blood pressure points of human body to get the measured values has excellent parameter accuracy and consistency of repeated measurements, and has excellent anti-interference ability.

SpO₂

FASP SpO₂ measurement technology is included in 7000D. It can accurately measure SpO₂, PR and PI Index. SpO₂ can be detected accurately in the range of 40% to 100%, and the PI index can reach 0.057% at the lowest. It has strong anti-interference ability and super low perfusion performance.

PR (Pulse Rate)

The real PR can be obtained from ECG, SpO₂ or NIBP.

7000D has log management and export function, nurse call function and alarm limit one key setting function. It also has the function of automatic adjustment of pulse tone through the change of SpO₂'s high and low voice. So clinicians can get the changes of vital signs of patients from their hearing.

Accessories

We elaborately selected the materials, extremely attention to every detail of the design, and strive to make you satisfied.

Split type 5-lead ECG cable, imported TPU wire, wipe disinfection 2000 remains the same color gold plated electrodes, more stable signal acquisition.

Removable internal capsule design, convenience for wash imported PU fabric, comfortable tactile impression, easy cleaning and disinfection to avoid cross infection.

Split type SpO₂ cable, shading design, strong resistance to Interference.

Multiple Networking Modes

Zoncare provides a super flexible solution for monitoring your patient's status anywhere, anytime, even when you are away from the clinical environment or patients in the ambulance.

Standard Configuration:

ECG, HR (Heart Rate), NIBP, SpO₂, PR (Pulse Rate), Respiration, Dual-TEMP, Lithium Battery

Optional Configuration:

3-channel Recorder, Wall Bracket, Trolley, Battery, Touch Screen, WIFI Module, EtCO₂ Module, IBP Module, Suntech NIBP Module, Masimo SpO₂ Module,
